

ROOM TO STAND!

SUPREME SPARTAN® CARGO VAN

- Choose a 72" high (shown) or 78" high tall body!
- Stand up straight – don't strain your back lifting.
- 10" deep, 18" high, poched full-width step bumper for easy loading and unloading.
- FRP durability. Vertical sidewalls and flat wheel wells provide maximum cubic load capacity.
- Very competitively priced.

GM CARGO VAN

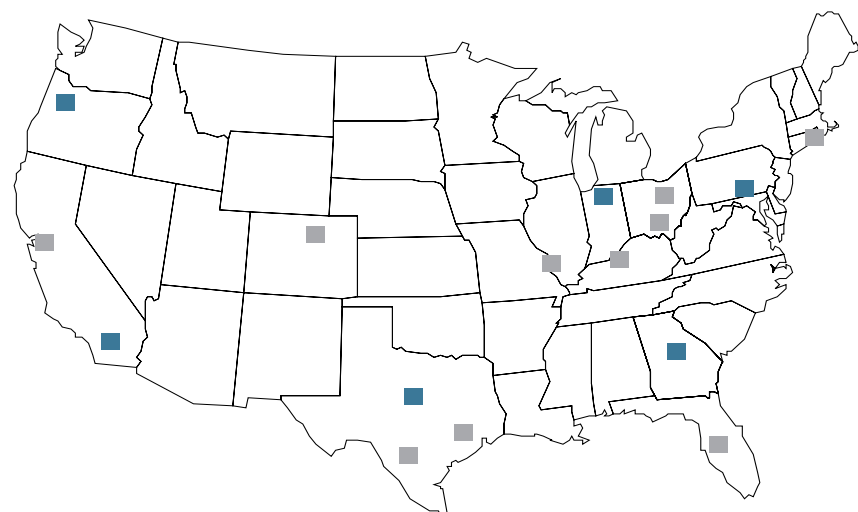

- At 51.9" tall inside, loading can be hard on your back.
- Exiting the van can be a challenge.
- Curved walls limit loading capacity.
- Rounded wheel wells make stacking cargo difficult.

Supreme Corporation, a publicly held company (American Stock Exchange, symbol: STS), was founded in 1974. Since that time, we've become the nation's leading full-line manufacturer of customized, general-purpose truck and bus bodies. We've done so by building a reputation for strict quality standards, aggressive product innovation, and uncommon responsiveness to our customers' needs.

Supreme is a vertically integrated manufacturer, a strategy that allows for better control of the cost, quality, and availability of materials. Our technologically innovative fiberglass-reinforced plywood (FRP) plant in Ligonier, Indiana, combined with our fiberglass molding and fabrication facilities, creates cost efficiencies, allows us total quality control, and provides material availability that other body builders cannot match.

Supreme employs more than 2,000 people at six manufacturing plants and ten service centers throughout the United States, each fully dedicated to surpassing our customers' expectations.

Spartan® Cargo Van

QUICK FACTS

SPARTAN® CARGO VAN

Spartan Cargo Van provides the smooth, easy maneuverability of a van with the full-height, spacious cargo area of a truck. It's the perfect vehicle for the delivery business that's ready to take a step up.

KEY FEATURES

- Durable, fiberglass-reinforced plywood (FRP) body
- Wide, 48½" rear double doors
- 72" and 78" high cargo area
- Low, flat-top wheel boxes
- Low, 10" deep, full-width poched step bumper

KEY OPTIONS

- Top Hat cab with full-height cab-access door
- Full-width double doors
- Step-Saver side door with step well
- Fixed and adjustable interior shelves
- Full-width, roll-up overhead rear door

MY SPARTAN CARGO

My business was growing. I needed increased delivery efficiency, but I loved the maneuverability of my van. That's when I discovered the

Spartan Cargo Van. It handles like a dream – even in tight spaces – yet my guys can stand up inside. The straight walls and interior design offer maximum cargo capacity, greatly increasing my efficiency. Spartan is the right vehicle to help me grow my business. ■

SPARTAN CARGO VAN DELIVERS

- Interior cargo-area heights are 20"–26" taller than the OEM cargo van.
- Cargo capacity is 75% or more than the traditional cargo van.
- Vertical walls vs. curved walls. Square boxes fit.
- Flat FRP walls provide excellent signage opportunities.
